Mainewebfx	<a href="http://www.newspaperwebdesign.com/analysis">http://www.newspaperwebdesign.com/analysis</a>	Maine Web FX's Web Development Division is an international newspaper web development firm building dynamic, newspaper content management systems for the newspaper industry, while allowing for community and readership interaction. We provide web-based solutions for all newspapers from small town weeklies to daily regional and metro papers.	X
Ellington	<a href="http://www.ellingtoncms.com/cms/">http://www.ellingtoncms.com/cms/</a>	Our mission is to create the finest next-generation web services for modern, traditional, and emerging media. We build and maintain web content management and local business directory & search services for news and media companies. We believe in developing solutions that make complex operations more efficient, empowering our clients to build better and more engaging websites and services with less effort. We focus hard on giving journalists the tools they need to connect their communities through better, more local journalism. We treat content as a first class citizen, giving power to designers and developers to customize their sites to meet their unique needs. We raise the bar on community and social tools so you can operate at a level above and beyond the competition. We focus on designing the easiest to use, best designed sites, and constantly work on the next generation of features and services our clients need to win.	X
TownNews.com	<a href="http://tinyurl.com/6grs5nj">http://tinyurl.com/6grs5nj</a>	We have one mission at TownNews.com: Help newspapers survive and thrive in the New Media age. We understand the special role that you as newspapers play in your communities. We understand how the Internet is changing media consumption. And we're using that knowledge to help newspapers "own the internet" in their markets by providing easy-to-use content management systems and revenue generating tools.	
EntropySoft	<a href="http://www.entropysoft.net/cms/home/product">http://www.entropysoft.net/cms/home/product</a>	EntropySoft is helping fight fragmentation, enabling centralized access to all content repositories, (on-premise or in the cloud), making integration possible.	X
